Read before Use

As you install, copy or use this software, you are considered to have agreed to the End User License Agreement.

<https://baby-universe.com/subsc-store-en/end-user-license-agreement/>

1. Annual Subscription Product (Subscription-type License)

The product can be active by paying an annual subscription fee; after one year, the product is no longer available and can be active again after subscription renewal.

2. License Policy

A user of this software is allowed to install this software to up to two computers that both are owned and used by yourself. Sharing one license with other unauthorized individuals is not allowed. Baby Universe will not provide any kind of support for unauthorized use of software and is not responsible for any consequences occurred by the use. In case the violation was detected Baby Universe may request the user the price for licenses that should have been paid for the number of user and compensation for damages caused by the violation.

3. Warranty Disclaimer

Baby Universe disclaims any warranty for the software. Users accept any and all risk arising out of use or performance of the software.

System Requirements

This software works on the computer with the following versions of Adobe Illustrator working properly (as of June 2025).

macOS : Illustrator 2024, 2025

Windows : Illustrator 2024, 2025

※ This software may not work properly with other plug-ins running at the same time.

※ Please ensure you may use a plug-in while connected to the Internet. If you do not have a good Internet connection, the behavior of the plug-in may be affected.

Install

1. Start installing plug-ins using the installers

Run Setup.exe in the downloaded folder (Installer.app for macOS).

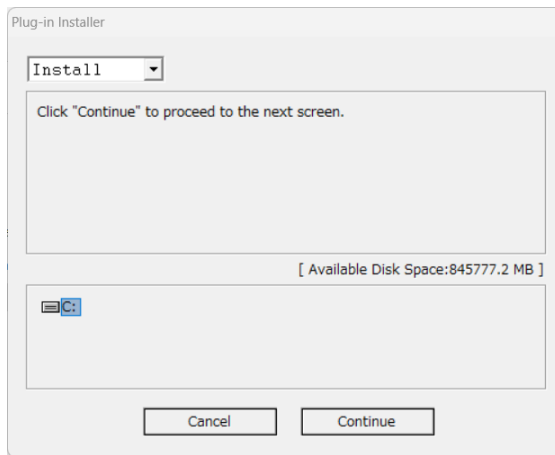

Setup.exe

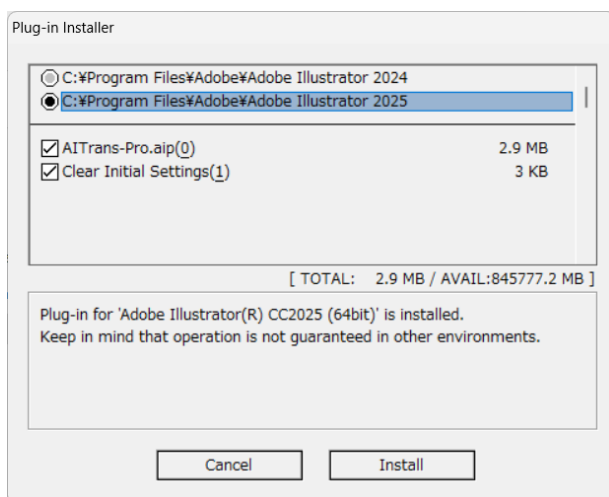

Installer.app

✘ Please refrain from manual installation.

2. Make sure “Install” is selected and click the “Continue” button.

3. Select an appropriate Illustrator version to be installed ✘Important

4. Installation complete

Follow the dialog until the message “Installation finished” shows. Now the installation of the plugin is complete.

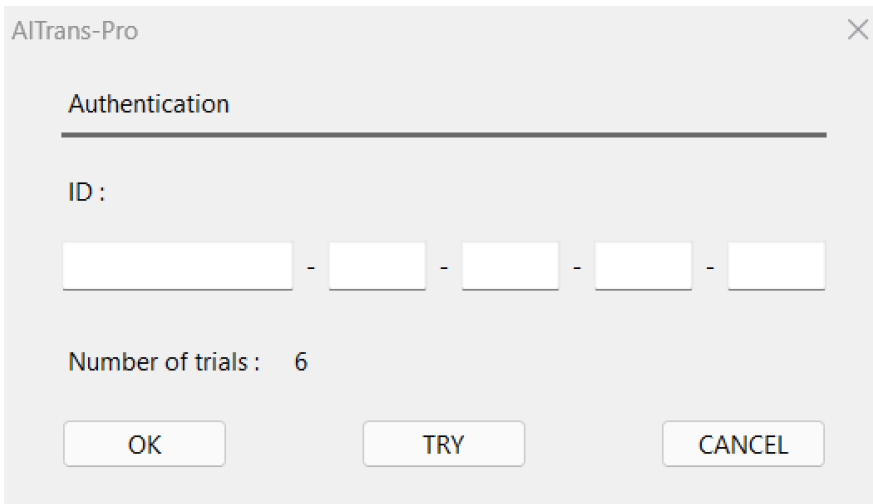

Plug-in Authentication and Trial

Plug-in Authentication

When you purchase a subscription plug-in, a serial number (authentication ID) will be sent to your registered e-mail address. After plug-in installation, please relaunch the application. When you start to use any plug-ins, you will see a pop up window to fill in your serial number.

The serial number (ID) is divided into five parts by hyphens: 11-4-5-4-5 digits.

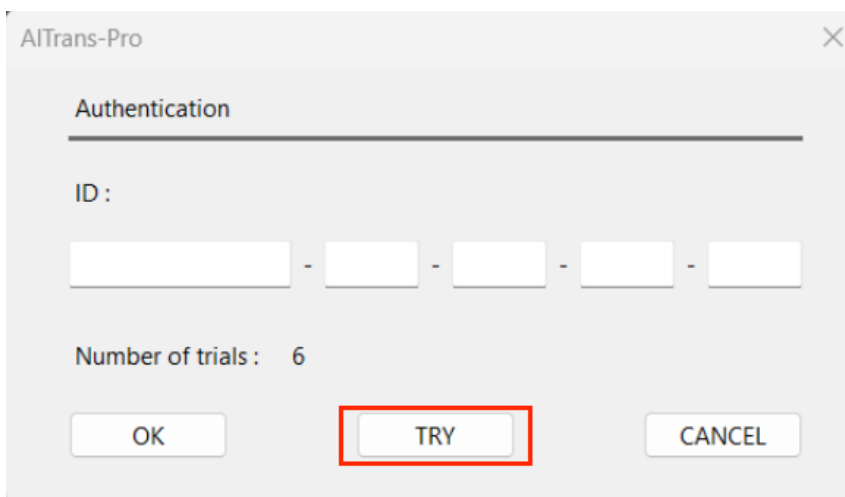

Please enter each set of numbers into the corresponding box. Then, click “OK” to authenticate.

The screenshot shows a dialog box titled "AITrans-Pro" with a close button (X) in the top right corner. The dialog is titled "Authentication" and has a horizontal line below the title. Below the line, the text "ID:" is followed by five input boxes separated by hyphens. Below the input boxes, the text "Number of trials: 6" is displayed. At the bottom of the dialog, there are three buttons: "OK", "TRY", and "CANCEL".

Trial

If you try the software before purchasing, please install the appropriate version of the plug-in and launch Illustrator. When you select any tool or menu item from the plug-in, the following authentication dialog will appear. Click the “TRY” button to use the plug-in without authentication up to 30 times.

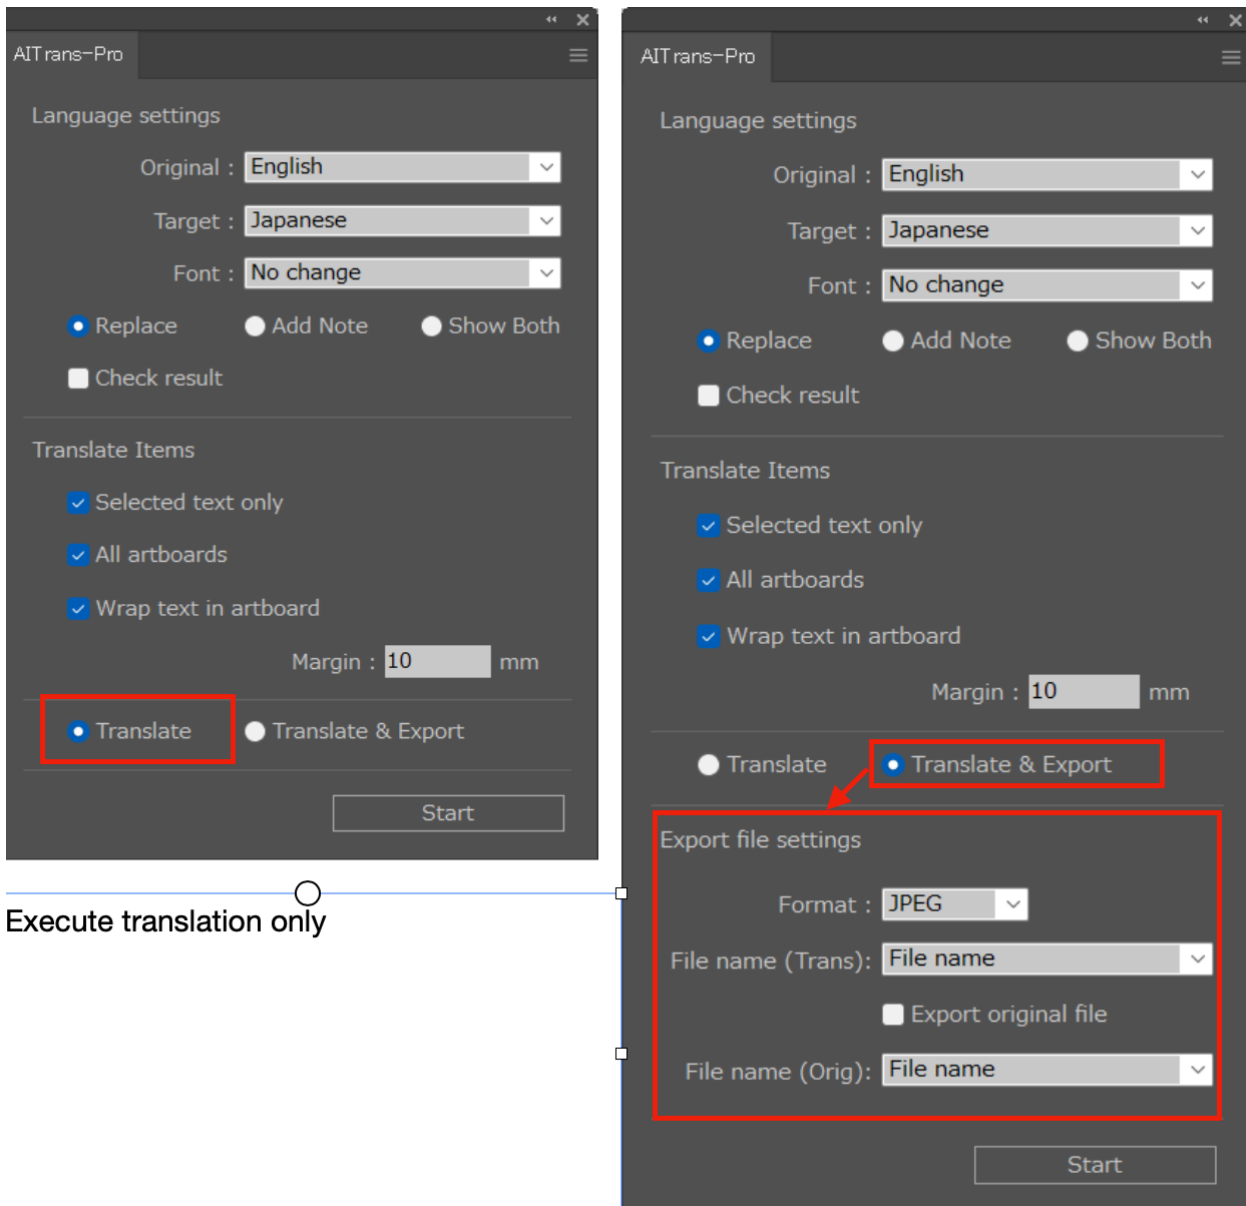

This screenshot is identical to the one above, showing the "AITrans-Pro" authentication dialog box. The "TRY" button at the bottom is highlighted with a red rectangular border.

AI Trans-Pro User Interface

Main Pallet

On the Main Pallet, you can configure "Language settings" and "Translate Items". At the bottom of the palette, use the radio button to choose between "Translation" or "Translate & Export". Selecting "Translate & Export" will display the Export file settings at the bottom of the palette.

If you only need to use translation, select "Translate".

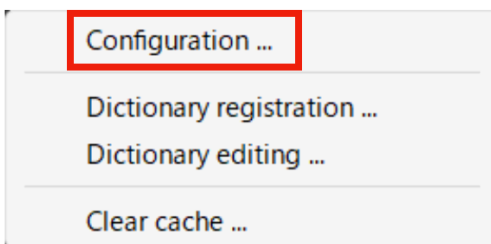

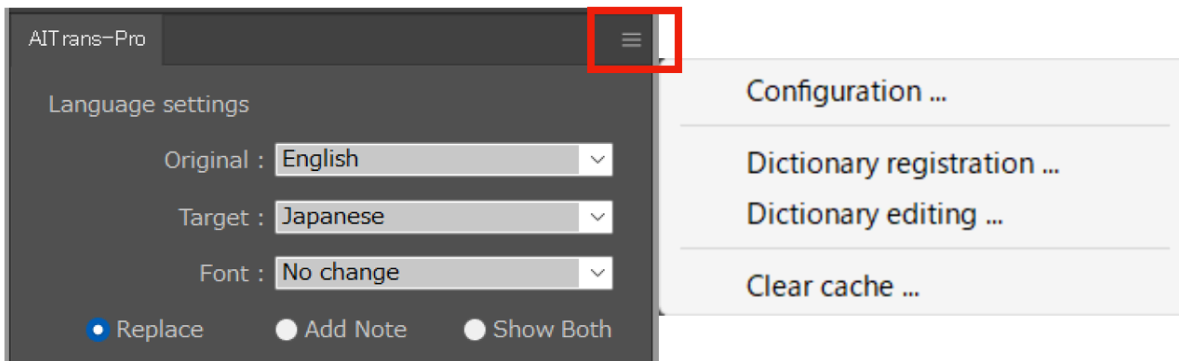

Execute translation only

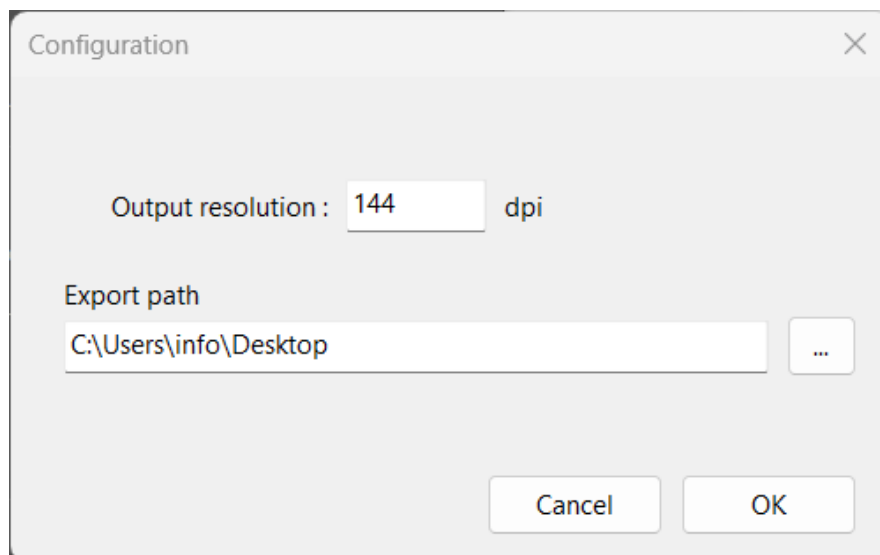

Execute translation and export

AI Trans-Pro Initial Settings

Click the menu button at the top right of the Main Palette, and then select "Configuration" to open the Configuration dialog for initial settings.

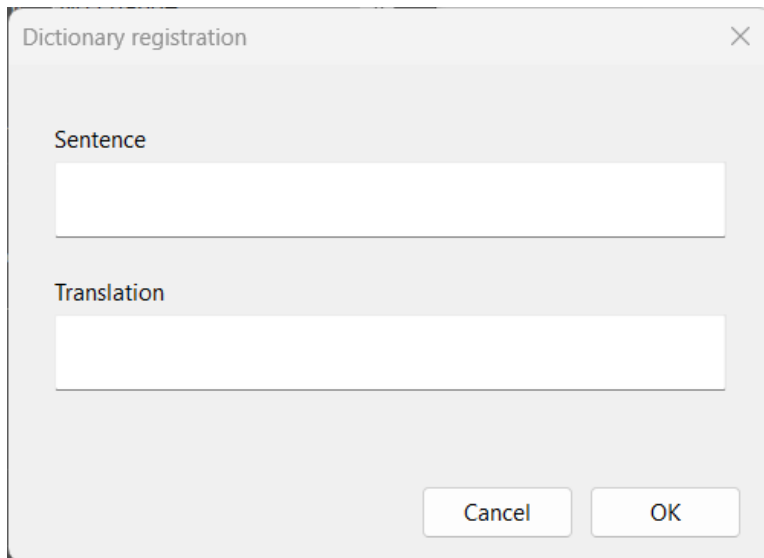

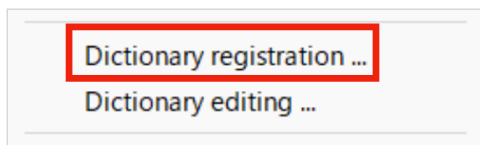

You can configure the following settings in the Configuration dialog.

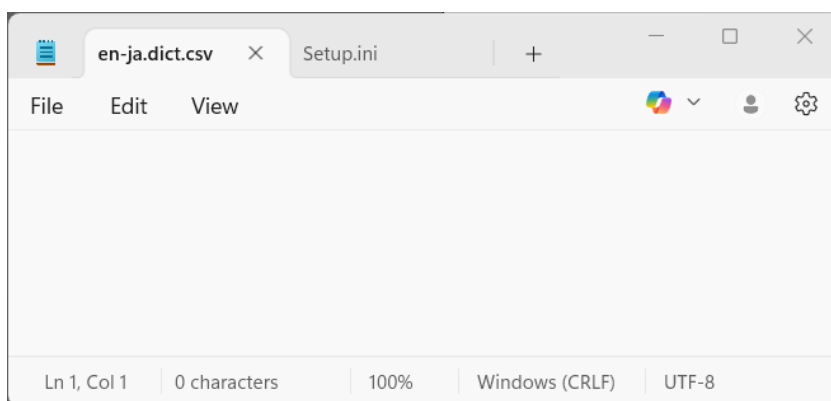

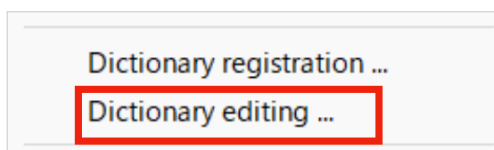

- Output resolution
Set the export resolution for JPEG and PNG files.
- Export path
Set the default export file path.

Register and Edit Dictionaries

Selecting "Dictionary Registration" opens the Dictionary Registration dialog, where you can pre-register your preferred translations for specific words and phrases.

You can also edit registered dictionaries by selecting "Dictionary editing". This option opens a text editor, where you can edit or delete existing entries, add new words and phrases, and save the updated dictionary.

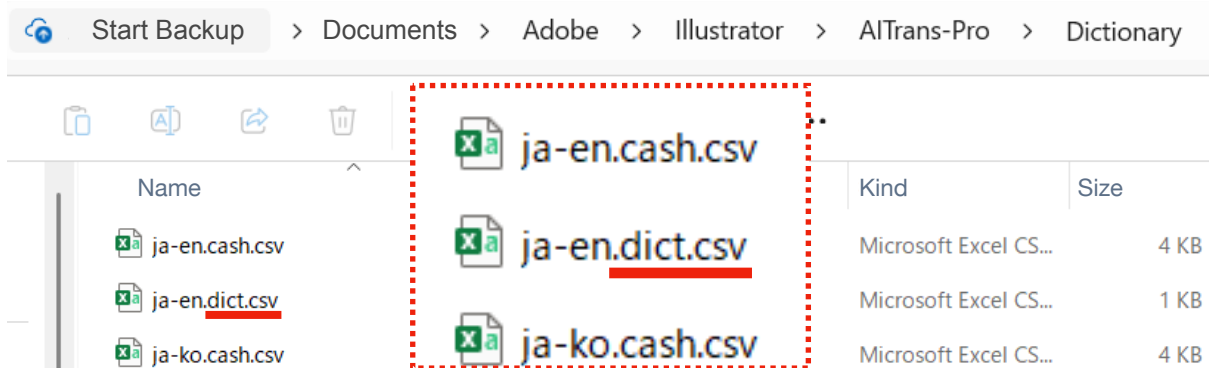

File format : CSV
Text code : UTF-8
Template : "source text", "translated text"

Share Registered Dictionaries with Other Users

Registered dictionaries are saved as CSV files (**-**.dict.csv) in the following folder. You can share dictionary data with other users by using these files.

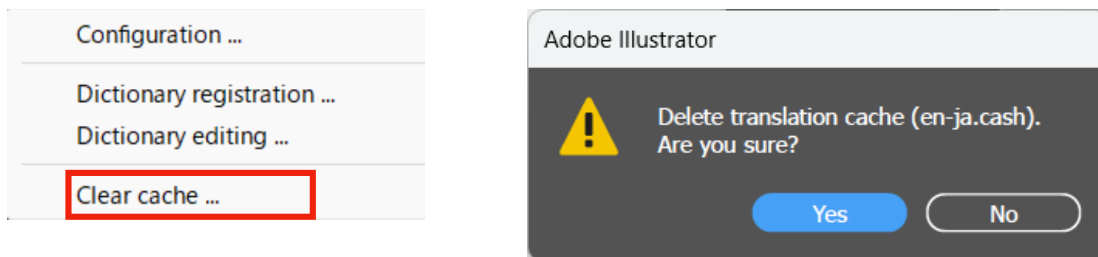

Windows : Documents > Adobe > Illustrator > AITrans-Pro > Dictionary

macOS : Documents > Adobe > Illustrator > AITrans-Pro > Dictionary

Clear Translation Cache

You can use the Clear Cache function to delete the translation cache generated by this plug-in.

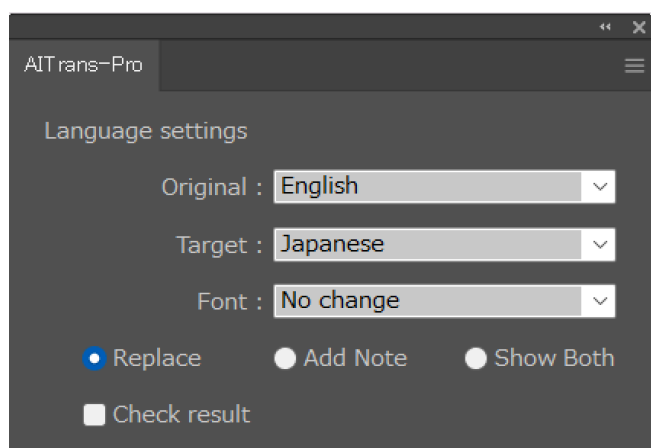

This functions deletes the cache CSV file from its storage folder.

It is recommended to use this function if you encounter incorrect translations after an update to the translation API integrated into this software, or for other issues. When the translation API is updated with improved features, regularly clearing the cache can help ensure you receive more natural translation results.

AITrans-Pro Functions

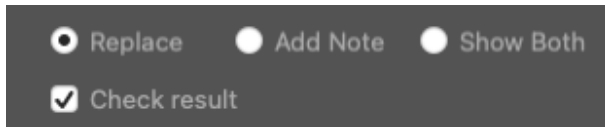

Language Settings

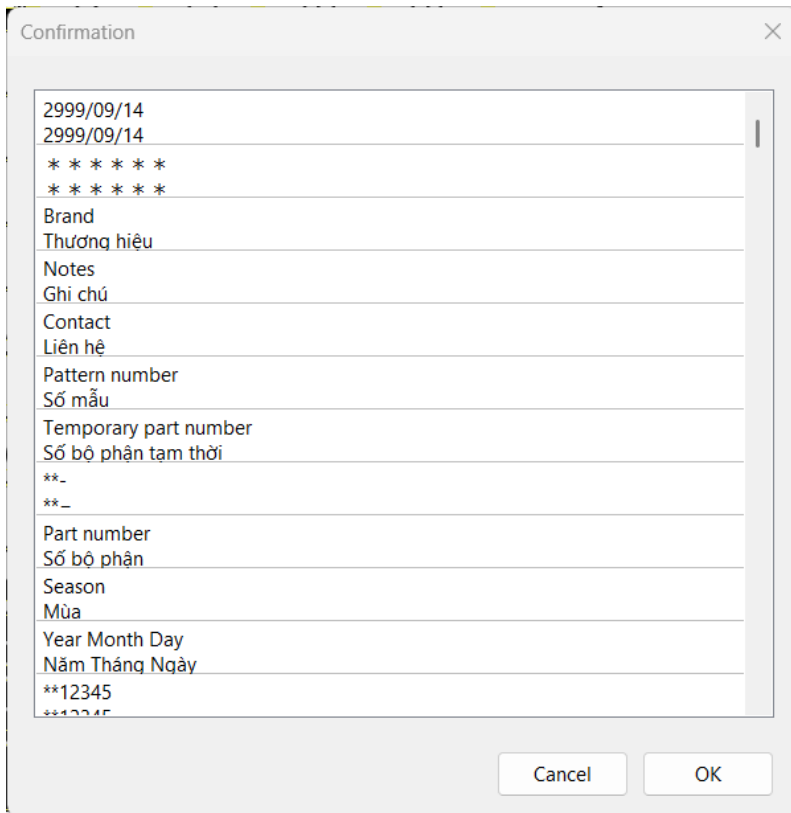

- Original
Specify the language of the source text.
- Target
Select the language into which the source text will be translated.
- Font
Choose the font used for displaying the translated text.
- Replace / Add Note / Show Both (Radio Buttons)
Select one of these options before starting the translation.

Original Text	Climbing the mountain path	
Replace	山路を登りながら	Replaces the original text with the translation.
Add note	Climbing the mountain path 山路を登りながら	Keeps the original text at full size and adds the translation at 50% as a note below it.
Show Both	Climbing the mountain path 山路を登りながら	Displays both the original and translated text on separate lines, each at 50% size.

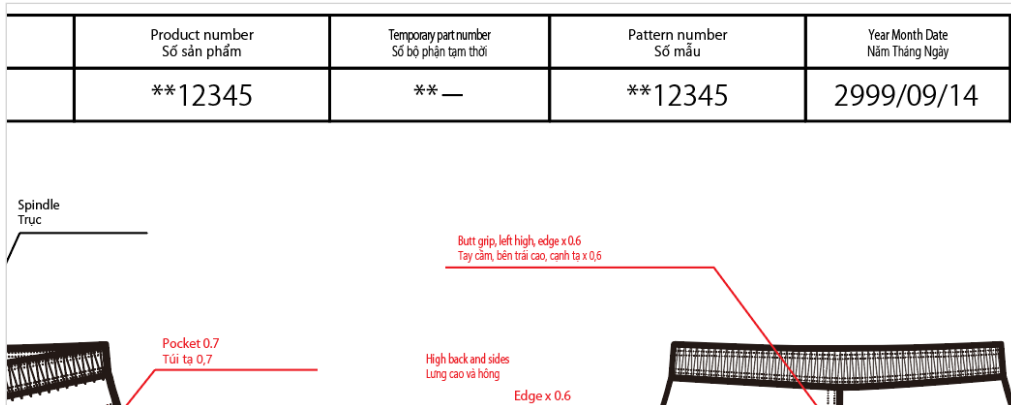

- Check result (checkbox)

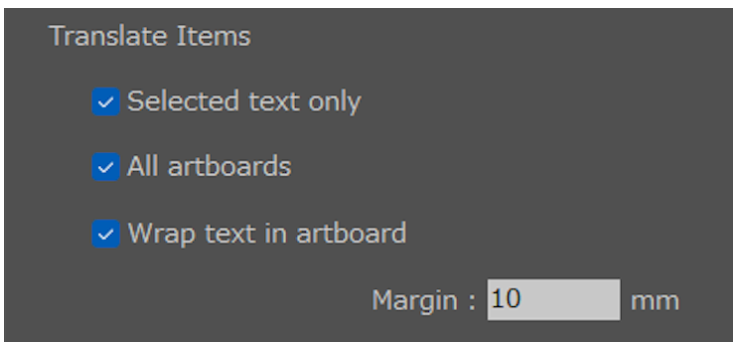

When enabled, this option displays the translated words and phrases before applying the translation.

✳ If the translation result fully matches the original word or phrase, the software will skip the translation.

Translated Items

- Selected text only
 - Checked : Only the selected text will be translated.
 - Unchecked : All text will be translated.
- All artboards
 - Checked : Only text within the artboard areas will be translated.
 - Unchecked : All text on the canvas will be translated.
- Wrap text in artboard / Margin
 - ※ It is recommended to keep this option checked when translating.
 - When translation results extend beyond the edge of the artboard (excluding the margin), the software automatically adjusts the text to fit within the artboard by splitting long lines as needed and aligning the text to the right.

Conditions required to enable text wrapping

- "Replace" must be selected in the Language settings on the Main Palette
- The original text must be created using Point Text in Adobe Illustrator.

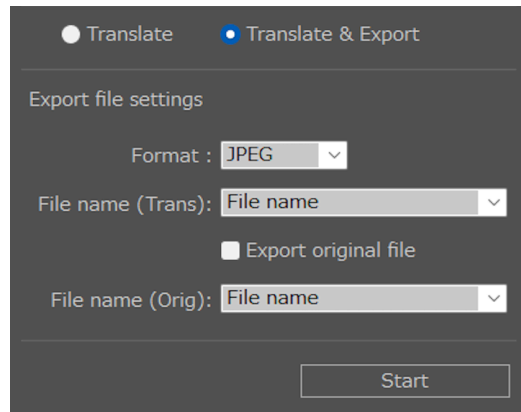

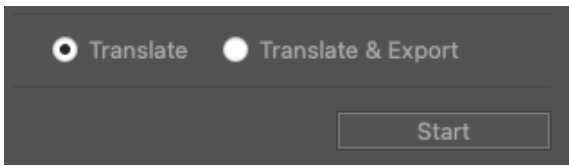

Original	We place the highest priority on customer satisfaction and always strive to provide high-quality service and prompt responses.
Margin 10mm	Chúng tôi đặt sự hài lòng của khách hàng lên hàng đầu và luôn nỗ lực cung cấp dịch vụ chất lượng cao và phản hồi nhanh chóng.
Margin 0mm	Chúng tôi đặt sự hài lòng của khách hàng lên hàng đầu và luôn nỗ lực cung cấp dịch vụ chất lượng cao và phản hồi nhanh chóng.
No check	Chúng tôi đặt sự hài lòng của khách hàng lên hàng đầu và luôn nỗ lực cung cấp dịch vụ chất lượng cao và phản hồi nhanh chóng.

Right end of artboard →

Translation Options

"Translate" translates the text without saving it.

"Translate & Export" translates the text and saves the result.

- Translate

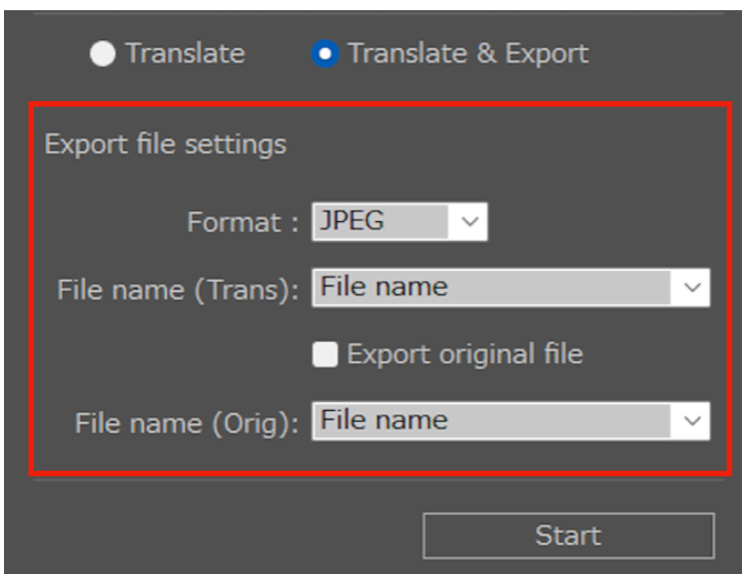

Applies the translation to the selected text elements on the canvas. If you want to keep the translated content, you'll need to manually save the file using "Save As" or "Save a Copy" from Adobe Illustrator's standard menu.

- Translate & Export

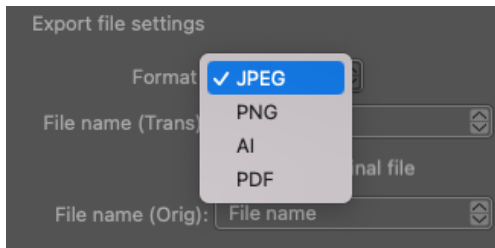

Applies the translation to the selected text elements on the canvas and exports the translated content as a new file, based on the settings configured in Export file settings.

Export file settings

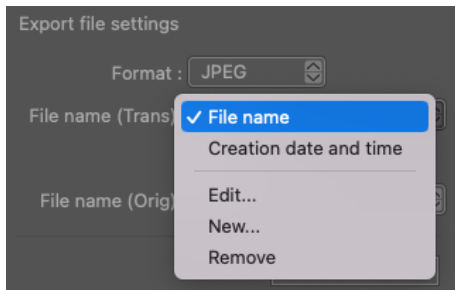

Selecting "Translate & Export" will display the Export file settings area.

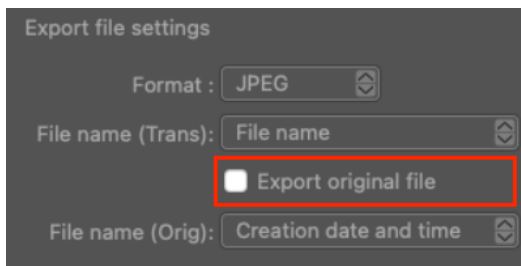

- Format
Supports JPEG, PNG, AI and PDF.

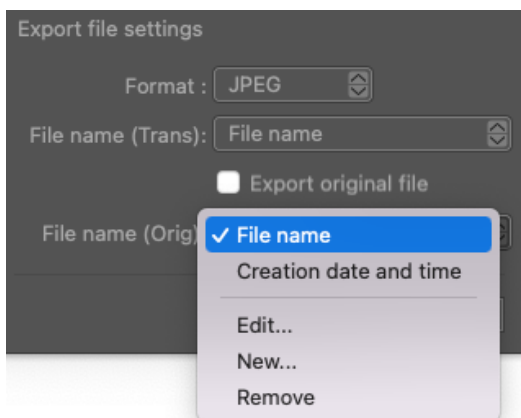

- File name (translated)

- Export original file (checkbox)
Checked : Both the translated content and the original file are saved.
Unchecked : Only the translated content will be saved as a new file.

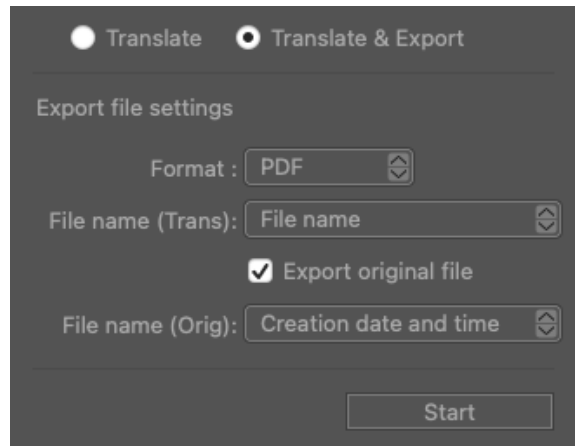

- File name (original)

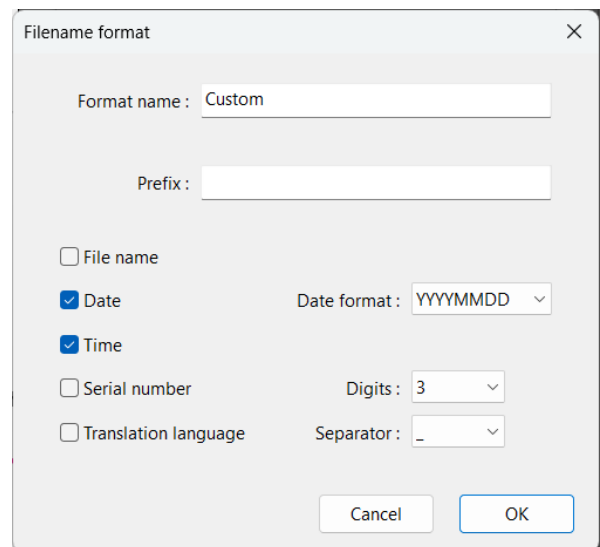

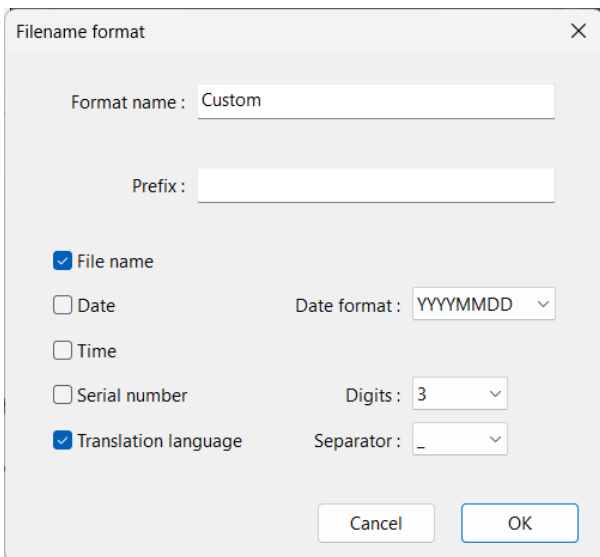

Example of an exported file

For example, when you apply "Translate & Export" to an .ai file (abcde.ai) using the settings shown below:

Default settings for the "File name" option

Default settings for the "Creation date and time" option

The exported files will be named as shown below:

Translated File

abcde_en.pdf

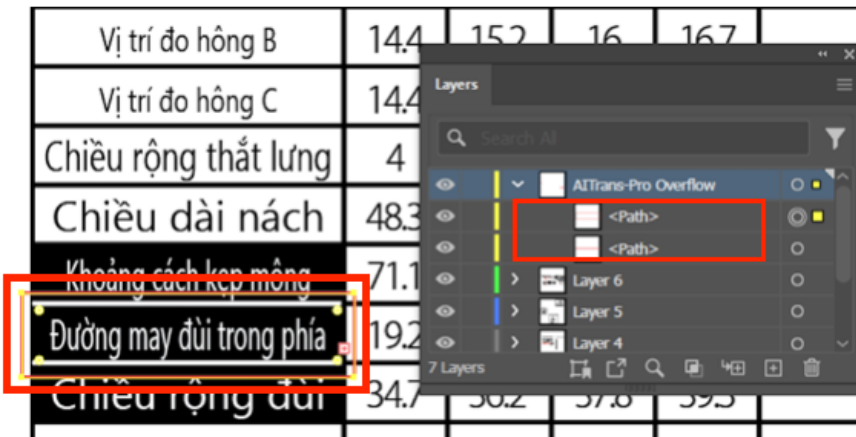

Original File

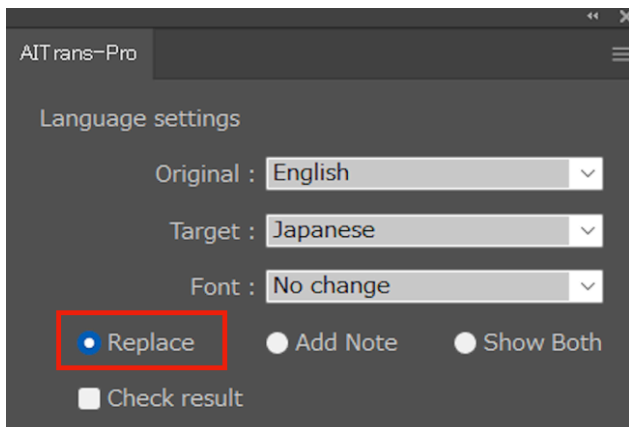

20250611_13441
1.pdf

Overflow check box of translation results of "Replacement"

When text box overflows occur as a result of translation, overflow checkboxes (red rectangle object) is created on the "AI Trans-Pro Overflow" layer.

This function will be valid only when the translation is done with the "Replace" option selected.

*If " Add Note " or " Show Both" is selected, no overflow checkbox is generated.
